Skills

I am a motivated and ambitious individual who consistently demonstrates a professional work ethic. I am pursuing an employment opportunity where I can show off my passion for software development. I possess excellent communication skills, and have an aptitude for attention to detail and accuracy. I have a proven ability to work independently as well as an integral member within a team environment.

My technical toolbox includes:

- **Dev Kit:** HTML5, CSS3, Tailwind CSS, React, JavaScript, Netlify, Firebase
- **Other Tools:** Node.js, Express, MongoDB, SQL, OOP, GitHub, Atlassian Suite, Agile

Other Personal Skills:

- Strong analytical and problem solving skills
- Building relationships with integrity and honesty
- Excellent multi-tasking capabilities
